

**RESEARCH UNIT OF MALATTIE DELL'APPARATO  
RESPIRATORIO**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Disturbi del sonno e ventilazione e ventilazione a lungo termine nelle patologie respiratory primitive e secondary".

The position will be appointed to administrative staff.  
Microsoft Office skills (Excel, Word, Power Point) are requested.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF SCIENTIFIC DIRECTORATE**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "La gestione dei processi di ricerca in Direzione Scientifica".

The position will be appointed to a qualified accountant.  
Microsoft Office skills (Excel, Word, Power Point) are requested.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF CITOGENOMICA  
TRASLAZIONALE**

We would like to invite applications at the Bambino Gesù Children's Hospital for 2 positions of research fellowship for the project "Caratterizzazione molecolare di pazienti con malattie rare mediante tecniche di analisi genomica e citogenomica" .

The positions will be appointed to administrative staff.  
Microsoft Office skills (Excel, Word, Power Point) are requested.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

Research positions will be awarded to the successful candidates. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the positions are filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF GENETICA MOLECOLARE DEI  
CARATTERI COMPLESSI**

We would like to invite applications at the Bambino Gesù Children's Hospital for 2 positions of research fellowship for the project "Valutazione dell'azione di composti anti-ossidanti sul danno epatico indotto da NAFLD (nonalcoholic fatty liver disease) in modelli in vitro e in pazienti pediatrici".

The positions will be appointed to biologists.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

Research positions will be awarded to the successful candidates. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the positions are filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF MALATTIE NEUROMUSCOLARI**

We would like to invite applications at the Bambino Gesù Children's Hospital for 2 positions of research fellowship for the project "Malattie neurodegenerative e neuromuscolari: studi genomici ed analisi funzionali utilizzando modelli cellular per sviluppare strategie terapeutiche".

The positions will be appointed to biologists.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

Research positions will be awarded to the successful candidates. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the positions are filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF IMMUNODEFICIENZE  
PRIMITIVE**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Immunodeficienze primitive, infezione da EBV e immunodisregolazione: validazione di nuovi geni e target di immunoterapia".

The position will be appointed to a biologist.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF DIAGNOSTICA  
IMMUNOLOGICA**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Valutazione della risposta immunologica alla vaccinazione anti SARS-CoV-2".

The position will be appointed to biologist.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF TERAPIA GENICA DEI TUMORI**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Ruolo delle cellule stromali mesenchimali della nicchia midollare nella risposta al trattamento con cellule GD2-CAR-T di pazienti pediatrici affetti da neuroblastoma metastatico".

The position will be appointed to biologist.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF FISIOPATOLOGIA DEL  
TESSUTO OSSEO**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Caratterizzazione di nuovi trattamenti osteo-anabolici per displasie scheletriche rare con ridotta massa ossea".

The position will be appointed to biologist.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF GENETICA CLINICA E  
DISMORFOLOGIA**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Caratterizzazione clinico-molecolare di sindromi dismorfiche ultrarare mediante analisi di sequenziamento di nuova generazione".

The position will be appointed to biologist.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF GENETICA E EPIGENETICA DEI  
TUMORI PEDIATRICI**

We would like to invite applications at the Bambino Gesù Children's Hospital for 2 positions of research fellowship for the project "RNA-based therapy per il glioblastoma".

The positions will be appointed to biologists.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

Research positions will be awarded to the successful candidates. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the positions are filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF MEDICINA PREDITTIVA E  
PREVENTIVA**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Biomarcatori circolanti per la diagnosi e il monitoraggio di patologie pediatriche e utilizzo di approcci nanotecnologici e di 3D bioprinting in biomedicina".

The position will be appointed to biologist.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF GENETICA E EPIGENETICA DEI  
TUMORI PEDIATRICI**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Manipolare il processo di autofagia come nuova strategia per contrastare l'immuno-resistenza nel medulloblastoma ad alto rischio".

The position will be appointed to biologist.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF CITOGENOMICA  
TRASLAZIONALE**

We would like to invite applications at the Bambino Gesù Children's Hospital for 4 positions of research fellowship for the project "Caratterizzazione molecolare di pazienti con malattie rare mediante tecniche di analisi genomica e citogenomica" .

The positions will be appointed to biologists.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

Research positions will be awarded to the successful candidates. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the positions are filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF INNOVAZIONI DIAGNOSTICHE  
GESTIONALI**

We would like to invite applications at the Bambino Gesù Children’s Hospital for a position of research fellowship for the project “Costruzione di percorsi diagnostici ottimizzati in medicina di laboratorio”.

The position will be appointed to biologist.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant’s CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF GENETICA E EPIGENETICA DEI  
TUMORI PEDIATRICI**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Strategie per promuovere la risposta alla radioterapia nel Rabbdomiosarcoma pediatrico".

The position will be appointed to biologist.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF IMMUNODEFICIENZE  
PRIMITIVE**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Immunodeficienze primitive, infezione da EBV e immunodisregolazione: validazione di nuovi geni e target di immunoterapia".

The position will be appointed to biotechnologist.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF DIAGNOSTICA  
IMMUNOLOGICA**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Valutazione della risposta immunologica alla vaccinazione anti SARS-CoV-2".

The position will be appointed to biotechnologist.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF TERAPIA GENICA DEI TUMORI**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Studi pre-clinici di terapia avanzata basati su cellule CAR T per il trattamento di pazienti con Medulloblastoma".

The position will be appointed to biotechnologist.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF FISIOPATOLOGIA  
DELL'ACCRESIMENTO**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Validazione di nuovi geni target di immunoterapia nelle patologie autoimmune e fenotipi complessi ad esse associate".

The position will be appointed to biotechnologist.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF MALATTIE METABOLICHE**

We would like to invite applications at the Bambino Gesù Children's Hospital for 2 positions of research fellowship for the project "Medicina metabolica traslazionale: un approccio integrato alla diagnosi e alla terapia di precisione degli errori congeniti del metabolismo".

The positions will be appointed to chemists.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

Research positions will be awarded to the successful candidates. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the positions are filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF ESITI CLINICI E PERCORSI  
MEDICO-CHIRURGICI**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Uso dei big data sanitari per lo sviluppo di indicatori ed il supporto clinico-decisionale".

The position will be appointed to pharmacist.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF MALATTIE METABOLICHE**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Il monitoraggio terapeutico del farmaco come supporto al miglioramento dell'outcome clinico nei pazienti pediatrici affetti da malattie infiammatorie intestinali o artrite idiopatica giovanile in trattamento con farmaci biologici inibitori del TNF-alpha".

The position will be appointed to pharmacist.  
Clinical expertise in the field is requested.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF IMAGING MULTIMODALE**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Innovazioni nell'utilizzo dell'imaging per la diagnostica e il trattamento di patologie pediatriche complesse".

The position will be appointed to physicist.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF MALATTIE DELL'APPARATO  
RESPIRATORIO**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Disturbi del sonno e ventilazione e ventilazione a lungo termine nelle patologie respiratory primitive e secondary".

The position will be appointed to nurse.  
Clinical expertise in the field is requested.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF MALATTIE NEUROLOGICHE E  
NEUROCHIRURGICHE**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Tecniche innovative di laboratorio nella diagnostica delle malattie neurologiche pediatriche" .

The position will be appointed to nurse.  
Clinical expertise in the field is requested.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF EPATO-GASTROENTEROLOGIA  
CLINICA E TRAPIANTOLOGIA**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Sviluppo di un sistema integrato di perfusione extracorporea normotermica per la conservazione prolungata del fegato. Un modello per studi di fisiopatologia e medicina traslazionale epatica".

The position will be appointed to biomedical engineer.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF TERAPIE INNOVATIVE PER LE  
ENDOCRINOPATIE**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Valutazione della correlazione tra parametri bidimensionali fotografici del volto, secrezione ormonale, ed alterazioni radiologiche (RMN e scheletriche) in soggetti con alterazioni genetiche note".

The position will be appointed to physician with specialization in endocrinology and metabolic diseases.

Clinical expertise in the field is requested.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF IMMUNODEFICIENZE  
PRIMITIVE**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Immunodeficienze primitive, infezione da EBV e immunodisregolazione: validazione di nuovi geni e target di immunoterapia".

The position will be appointed to physician with specialization in pediatrics.  
Clinical expertise in the field is requested.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF MALATTIE DELL'APPARATO  
RESPIRATORIO**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Disturbi del sonno e ventilazione e ventilazione a lungo termine nelle patologie respiratory primitive e secondary".

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF MALATTIE METABOLICHE**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Il monitoraggio terapeutico del farmaco come supporto al miglioramento dell'outcome clinico nei pazienti pediatrici affetti da malattie infiammatorie intestinali o artrite idiopatica giovanile in trattamento con farmaci biologici inibitori del TNF-alpha".

The position will be appointed to physician with specialization in pharmacology and toxicology. Clinical expertise in the field is requested.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF CITOGENOMICA  
TRASLAZIONALE**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Caratterizzazione molecolare di pazienti con malattie rare mediante tecniche di analisi genomica e citogenomica".

The position will be appointed to physician with specialization in medical genetics. Clinical expertise in the field is requested.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF INNOVAZIONI DIAGNOSTICHE  
GESTIONALI**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Costruzione di percorsi diagnostici ottimizzati in medicina di laboratorio".

The position will be appointed to physician with specialization in clinical pathology.

Clinical expertise in the field is requested.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF SPERIMENTAZIONI CLINICHE**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Innovazioni terapeutiche per patologie ad alta complessità in Pediatria".

The position will be appointed to physician.  
Clinical expertise in the field is requested.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

NEUROCHIRURGICHE**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Tecniche innovative di laboratorio nella diagnostica delle malattie neurologiche pediatriche" .

The position will be appointed to physician.  
Clinical expertise in the field is requested.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF PATOGENESI E TERAPIE  
INNOVATIVE IN INFETTIVOLOGIA**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Patogenesi e terapie innovative in infettivologia".

The position will be appointed to physician with specialization in pediatrics.  
Clinical expertise in the field is requested.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF NEURORIABILITAZIONE**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "L'intervento riabilitativo per migliorare l'outcome e la qualità di vita del bambino disabile e della sua famiglia durante la pandemia da COVID-19".

The position will be appointed to orthoptist.  
Clinical expertise in the field is requested.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF NEUROPSICHIATRIA**

We would like to invite applications at the Bambino Gesù Children's Hospital for 3 positions of research fellowship for the project "La neuromodulazione come prospettiva di trattamento per la discalculia evolutiva: correlati comportamentali ed elettrofisiologici" .

The positions will be appointed to psychologists.

Clinical expertise in the field is requested.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

Research positions will be awarded to the successful candidates. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the positions are filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF MEDICINA PREDITTIVA E  
PREVENTIVA**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Infezioni respiratorie comunitarie nel bambino in corso di pandemia da SARS COV2".

The position will be appointed to psychologist.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF GENODERMATOSI**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Malattie genetiche rare con interessamento cutaneo: studio di meccanismi patogenetici, di determinanti molecolari e correlazioni genotipo-fenotipo per migliorare le conoscenze sull'eziopatogenesi ed identificare nuovi bersagli terapeutici."

The position will be appointed to biomedical laboratory technician.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF NEURORIABILITAZIONE**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Valutazione e riabilitazione dei disturbi percettivo-motori in bambini atassici con metodologie innovative" .

The position will be appointed to psychomotor therapist.  
Clinical expertise in the field is requested.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF MALATTIE NEUROLOGICHE E  
NEUROCHIRURGICHE**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Tecniche innovative di laboratorio nella diagnostica delle malattie neurologiche pediatriche" .

The position will be appointed to neurophysiopathology technician.  
Clinical expertise in the field is requested.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF IMAGING MULTIMODALE**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Innovazioni nell'utilizzo dell'imaging per la diagnostica e il trattamento di patologie pediatriche complesse".

The position will be appointed to physician with specialization in otolaryngology.  
Clinical expertise in the field is requested.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF IMMUNOLOGIA DEI TUMORI**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Analisi di checkpoint inibitori espressi dalle cellule NK e ILC "helper" in vitro ed in vivo in tumori solidi e malattie reumatiche pediatriche" .

The position will be appointed to physician with specialization in clinical immunology and allergology.

Clinical expertise in the field is requested.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.

**RESEARCH UNIT OF IMMUNOREUMATOLOGIA**

We would like to invite applications at the Bambino Gesù Children's Hospital for a position of research fellowship for the project "Predittori di risposta alla terapia nei pazienti con artrite idiopatica giovanile (AIG) ed artrite idiopatica giovanile sistemica (AIGs)".

The position will be appointed to biomedical laboratory technician.

Previous certified research experience relevant to the field of the project would be considered an advantage. Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on 15<sup>th</sup> of March 2021 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG RC2021

Please contact Annarosa Monopoli ([contrattisti-direzione.scientifica@opbg.net](mailto:contrattisti-direzione.scientifica@opbg.net)) for any further information.
