

**RESEARCH UNIT OF Neuromuscular e Neurodegenerative  
Disease**

Applications for one position as a **Medical Geneticist** with experience in Neurology or a **Pediatric Neurologist** with experience in Genetics as a research fellow at the 'Neuromuscular Disease Research Unit' are open.

We would like to invite applications at the Bambino Gesù Children's Hospital for one position of research fellowship for the project "**European Project IMI Screen4Care**".

The position will be appointed to Neurogenetics or Pediatric Neurology.

Clinical expertise in the field of Rare Neurological Disease and Neuromuscular Disease is requested.

Microsoft Office skills (Excel, Word, Power Point) are requested.

Previous certified research experience in relevant to the field of the project would be considered an advantage.

Interpersonal relationship skills, predisposition to teamwork and problem solving skills will be considered preferential characteristics.

Availability is required from Monday to Friday, full time.

A research position will be awarded to the successful candidate for 12 months. Position and salary will depend on qualification and experience.

Review of applications will begin on April and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to [direzione.scientifica@opbg.net](mailto:direzione.scientifica@opbg.net), quoting the code OPBG 2022\_12
